

Cell Story

Assignment:

Write an original story about being shrunken down and traveling into a cell. Your story must be descriptive, telling about each organelle that you see and what function each is carrying out. (At least FIVE organelles must be described!)

Make sure that your story has a beginning and an ending, most likely to explain how you got shrunken down and what will happen now that you've been in a cell. Be creative with your story -- you are only limited by the requirements below. Don't forget to describe what things look like, but feel free to use your imagination!

Grading:

Your grade for this assignment will be based on the following -

Scientific Accuracy:	30 points
Five organelles <u>described</u> -----	_____ / 10
Five organelles' <u>functions</u> given-----	_____ / 10
General biological accuracy-----	_____ / 10
Spelling / Grammar:	10 points
Spelling-----	_____ / 5
Sentence structure-----	_____ / 5
Creativity:	10 points
Beginning-----	_____ / 3
Originality-----	_____ / 4
Ending-----	_____ / 3

Total ----- / 50
