

College Planning

Juniors
Class of 2024

3 Easy Steps to College Planning

- Step 1: Identify Priorities – What is important to you?
- Step 2: Narrow School Choices – Narrowing the list of potential colleges.
- Step 3: Visit Schools – Campus visits give you a close up look.

Step 1: Identify Priorities

- Curriculum
- Size
- Location/Setting
- Admission Requirements
- Cost
- Facilities
- Athletics
- Campus Life & Security
- Retention and Graduation Rates

Step 2: Narrow School Choices

- Compare likes and dislikes of each school
- Group school choices by chances of admission: [CollegeVine](#)
- Organize your choices into 3 groups:
 - Reach Schools:
 - represent an admission challenge either by cost, admission requirements, or both.
 - Target Schools:
 - those which you are likely to get in but are not quite sure.
 - Safety Schools:
 - affordable schools, where you are sure to be admitted.

These may be different for different students!

- Make your final list
- Get and stay organized

Public vs Private Schools

Public Schools

- Supported by the state's taxpayers.
- Students pay 30% or less of actual cost of education and state covers the rest.
- In-state students pay less than out-of-state students.

Private Schools

- Provide their own funding and tend to be more expensive than public schools.
- However, since they are non-tax supported, they tend to be more innovative in developing college financing plans, tuition assistance programs and financial aid award packages.

Step 3: Visiting Schools

- Do some prep work (research school website and social media pages)
- Schedule your visit
- Visit while classes are in session and activities are in full swing
- Set up interviews with faculty and admissions staff ask lots of questions
- Trust your instincts
- Send thank you notes/emails
- If you can't tour the school in person, try virtual tours: [Youvisit](#)
