

9/26/23

Every year, Builders Club members work with Key Club to help the Kiwanians at the Kiwanis Peach Festival Food Tent. Builders Club helps by making french fries, serving food and drinks, and bringing supplies in and out of the tent. The members and officers of Builders Club volunteered many hours helping out at the food tent; some worked from the time the tent opened to when it closed, which is about 12 hours! However, Builders Club is not just for helping out at the Peach Festival. There are over 40,000 Builders Club members worldwide in 18 countries, and we're one of them! Builders Club mainly focuses on helping the community and providing services for people or charities in need. Every year, Builders Club raises hundreds of dollars for charity. Builders Club helps out with local events in the community like the Earth Day Clean Up, the Fort Niagara Beach Sweep, the Mighty Niagara Half Marathon, Youngstown Recreation celebrations, and so many more! Every year, we organize the district food drive and coat drive. Some of the big events are the Afghanistan Refugee Mitten and Hat Drive, donations for Oishei's Children's Hospital, Autism Awareness, World Cancer Day, and many more. We, as Builders Club members and citizens, try our best to make the world a better place, whether it's picking up garbage or serving food. No matter what we do to help the world and our community, it always makes a difference!

Bruno Scrufari  
Secretary of Builders Club
