SUBJECT: EVACUATION, LOCKDOWN, AND EMERGENCY DISMISSAL DRILLS**Evacuation, Lockdown, and Emergency Dismissal Drills**Overview

The purpose of drills is to practice personnel and student actions during an emergency. Except for evacuation drills, at the time that drills are conducted, students and personnel will be informed it is a drill. All drills must:

- a) Be conducted in a trauma-informed, developmentally, and age-appropriate manner and shall not include props, actors, simulations, or other tactics intended to mimic a school shooting, incident of violence, or other emergency;
- b) Occur after annual training in emergency procedures has been provided to students and personnel; and
- c) Be completed on different dates, days of the week, and during different times of the school day.

The administration of each school building will instruct and train students on appropriate emergency responses, through drills, in the event of a sudden emergency.

Definitions

For purposes of this section, the following definitions apply:

- a) Trauma means an emotional response to a deeply distressing or disturbing experience such as, but not limited to, an act of violence, natural disaster, abuse, neglect, or loss.
- b) Trauma-informed means an understanding of trauma and how it affects the physical, emotional, and mental health of students and adults.
- c) Trauma-informed drills mean avoiding tactics in training or drills that may introduce or activate trauma, such as the use of props, actors, simulations, or other tactics intended to mimic a school shooting, incident of violence, or other emergency, or inclusion of developmentally or age-inappropriate content. Drills may inadvertently prompt a negative emotional or psychological response in personnel or students because of previous exposure(s) to trauma.

SUBJECT: EVACUATION, LOCKDOWN, AND EMERGENCY DISMISSAL DRILLSDrill Requirements

The District will practice emergency response procedures under its District-wide school plan and building-level emergency response plan(s), where possible in cooperation with local law enforcement, emergency preparedness plan officials, and other first responders as follows:

a) Evacuation Drills

The District will conduct at least eight evacuation drills with students each school year. Six of the eight drills will be conducted between September 1 and December 31 of the school year. Four of the eight drills will be through the use of the fire escapes on buildings where fire escapes are provided or through the use of identified secondary means of egress, such as through different corridors, hallways, stairways, and exit doors.

Evacuation drills will be conducted at different times of the school day. Students will be instructed in the procedure to be followed if a fire occurs during a lunch period or assembly, provided, however, that this additional instruction may be waived where a drill is held during a regular school lunch period or assembly.

At least two additional drills will be held during summer school in buildings where summer school is conducted. One of the two drills will be held during the first week of summer school.

In the case of after-school programs, events, or performances which are conducted within a school building and which include persons who do not regularly attend classes in the school building, the principal or other person in charge of the building will require the teacher or person in charge of such after-school program, event, or performance to notify persons in attendance at the beginning of the program, event, or performance, of the procedures to be followed in the event of an emergency so that they may be able to respond in a timely, orderly manner.

b) Lockdown Drills

The District will conduct at least four lockdown drills with students each school year. Two of the four drills will be conducted between September 1 and December 31 of the school year.

Lockdown drills will be conducted at different times of the school day. Students will be instructed in the procedure to be followed if an emergency occurs during a lunch period or assembly, provided, however, that this additional instruction may be waived where a drill is held during a regular school lunch period or assembly.

SUBJECT: EVACUATION, LOCKDOWN, AND EMERGENCY DISMISSAL DRILLS**c) Emergency Dismissal Drills**

The District will conduct at least one emergency dismissal drill to test emergency response procedures that require early dismissal at a time not to occur more than 15 minutes earlier than the normal dismissal time.

Emergency dismissal drills will test the usefulness of the communications and transportation system during emergencies.

Notification

The District will notify parents or persons in parental relation at least one day, but no more than one week, before any drill. For emergency dismissal drills, the District will notify parents or persons in parental relation at least one week prior.

Bomb ThreatsSchool Bomb Threats

A bomb threat, even if later determined to be a hoax, is a criminal act. No bomb threat should be treated as a hoax when it is first received. Upon receiving any bomb threat, the school has an obligation and responsibility to ensure the safety and protection of the students and other occupants of the school. This obligation takes precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat-location, if any; time of detonation; etc. Specific procedures as to appropriate responses as a result of a bomb threat can be located in the building-level emergency response plan, as required by relevant law and regulation.

Police Notification and Investigation

Appropriate law enforcement agencies must be notified by the building administrator or designee of any bomb threat as soon as possible after receiving the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

Bus Emergency Drills

The administration will conduct a minimum of three emergency drills to be held on each school bus during the school year. The first drill will be conducted during the first seven days of school, the second drill between November 1 and December 31, and the third drill between March 1 and April 30. No drills will be conducted when buses are on routes.

Students who ordinarily walk to school will also be included in the drills. Students attending public and nonpublic schools who do not participate in regularly scheduled drills will also be provided drills on school buses, or as an alternative, will be provided classroom instruction covering the content of these drills.

Similarly, students will be instructed on all topics mandated by relevant sections of the Education Law and Commissioner's regulations, including, but not limited to, the following:

- d) Orderly conduct as bus passengers.

The administration of the drills will be in accordance with the New York State Education Department's Bus Safety Drill Guide and Compliance Form.

Instruction on Use of Seat Belts

When students are transported on school buses, the District will ensure that all students who are transported on any school bus owned, leased, or contracted for by the District will receive instruction on the use of seat safety belts. This instruction will be provided at least three times each year to both public and nonpublic school students who are so transported and will include, but not be limited to:

SUBJECT: VIRTUAL INSTRUCTION**Overview**

Virtual instruction has been part of the educational landscape in New York schools for decades. Under New York State regulations, virtual instruction is not the same as remote instruction. Virtual instruction is an intentional learning course or program conducted through digital means while remote instruction is instruction that occurs due to limitations on access to a brick-and-mortar classroom.

The District is not required to offer virtual instruction and/or blended instruction but may do so in certain circumstances.

Definitions

For purposes of this policy, the following definitions apply:

- a) "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
- b) "Blended instruction" means instruction provided by a teacher, as prescribed in regulation, that is designed for delivery part of the time as synchronous instruction in an in-person learning environment, and part of the time as synchronous, or synchronous and asynchronous, instruction in a virtual learning environment where there is regular and substantive interaction between the student and teacher.
- c) "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
 - 1. Remote instruction will encompass synchronous instruction provided through digital video-based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
 - 2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
- d) "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.
- e) "Virtual instruction" means synchronous, or synchronous and asynchronous, instruction provided by a teacher that is designed for delivery in a virtual learning environment where there is regular and substantive interaction between the student and teacher.

SUBJECT: VIRTUAL INSTRUCTION

- f) "Virtual learning environment" means an instructional and learning environment facilitated through digital video-based technology and/or a combination of an online learning management system and video-conferencing technology, where teacher-to-student, student-to-student, and/or student-to-content interactions occur solely through digital, internet-connected technology.

Virtual Instruction and Blended Instruction

If offered by the District, a student, with permission from their parents and/or persons in parental relation as applicable, may choose to receive virtual instruction and/or blended instruction, subject to certain conditions.

Before enrolling a student in virtual instruction and/or blended instruction, the District will ensure that the student has access to the digital, internet-connected technology and internet access necessary to receive and participate in virtual instruction.

When offered by the District, the District will ensure that virtual instruction and blended instruction:

- a) Align with applicable New York State Learning Standards;
- b) Are provided in accordance with enrolled students' individualized education programs to ensure the continued provision of a free appropriate public education;
- d) Provide for documentation of student mastery of the learning outcomes;
- e) Are provided in a manner consistent with the defined terms in this policy;
- f) Satisfy the unit of study and unit requirements in regulation; and
- g) Are provided by an appropriately certified teacher from the District, from a BOCES that the District has contracted with to provide instruction in the subject area, or from a district who provides instruction in the subject area under a shared service agreement.

A student with a disability who is receiving virtual instruction and/or blended instruction must continue to receive educational services to enable the student to receive a free appropriate public education.

SUBJECT: STUDENT GOVERNMENT

Student government organizations enhance civic engagement and leadership preparedness. Civic-ready students use civic knowledge, skills, and mindsets to make decisions and take actions for themselves, their communities, and the public good as members of a culturally diverse, democratic society.

Recognizing the benefits of student government organizations, the District has established **a student government for each school building in the District as appropriate.**

The student government will serve as a liaison between the student body and school administration, representing student perspectives in District policies and programs. It will meet regularly to discuss and address student interests and concerns, and to plan activities that promote civic engagement and school spirit.

The District will establish guidelines and procedures for the operation of the student government.
