SUBJECT: STUDENT EVALUATION, PROMOTION AND PLACEMENT

Promotion and the placement of students within the District's instructional system shall be facilitated by school administration in conjunction with District professional staff and shall be subject to review at any time. In making such decisions, each school will be guided by data including but not limited to performance in class, past records, including various measures of student growth; parent and teacher recommendations; and any other appropriate sources of information.

With regard to student classroom placement decisions, parents may submit written requests for teacher attributes that would best serve their child's learning needs; however, requests for specific teachers may not be honored.

Testing Program

The District utilizes various ability, achievement, diagnostic, readiness, interest and guidance tests for the purpose of complying with state and federal law and/or aiding the implementation of quality educational services. The District will not make any student promotion or placement decisions based solely or primarily on student performance on the state administered English language arts and mathematics assessments for grades 3 through 8. The District may, however, consider student performance on such state assessments in making student promotion and placement decisions provided that multiple measures be used in addition to such assessments and that such assessments do not constitute the major factor in such determinations.

Alternative Testing Procedures

The use of alternative testing procedures shall be limited to:

- a) Students identified by the Committee on Special Education and/or Section 504 Team as having a disability. Alternative testing procedures shall be specified in a student's Individualized Education Program or Section 504 Accommodation Plan; and
- b) Students whose native language is other than English (i.e., English language learners) in accordance with State Education Department Guidelines.

The alternative testing procedures employed shall be based upon a student's individual needs and the type of test administered.

The District shall report the use of alternative testing procedures to the State Education Department on a form and at a time prescribed by the Commissioner.
