## **Memorandum**

Date: August 11, 2021  
To: Paul J. Casseri, Superintendent of Schools  
From: Patricia Grupka, Assistant Superintendent for Administrative Services  
Subject: Approval of Montante Solar as the contractor for the energy efficiency project

This memo service as a request for approval of Montante Solar as the provider for the energy performance contract to provide and install solar panels on two of our buildings, the Primary Education Center and High School.

As a result of a public request for proposal, we had two bidders. We asked Trautman Associates to perform a technical review through their engineering department and they determined that Montante Solar was the lowest responsible bidder at \$1,306,350.

Because this is an energy efficiency project it does not require a public vote. We will receive State aid and energy rebates. We hope to have this project pay for itself in savings recognized through our electric bills.
